

Sagemcom Honored with prpl Foundation's Top Contributor Award at the 2025 prpl Summit

Bois-Colombes, October 13, 2025

Sagemcom is proud to announce that it has received the 2025 Top Contributor Award from the prpl Foundation for the second consecutive year, recognizing Sagemcom's commitment and leadership in advancing open-source innovation within the broadband industry.

"Sagemcom has been a Top contributor of the prpl community," said Leonard Dauphinee, President of the prpl Foundation. "We encourage the other members of our community to contribute in order to significantly advance the development and adoption of prpl technologies across the global broadband ecosystem."

Sagemcom has achieved several major milestones in collaboration with the prpl community — including being the first global manufacturer to deploy prplMesh and the first to achieve prplWare 3.2 & 4.0 device certification. The company's strong commitment to open-source development as a core element of its software strategy continues to deliver real value to broadband operators worldwide.

"We are honored to receive the prpl Foundation's Top Contributor Award," said Boris Nabadryk, Executive Vice President and Managing Director of Sagemcom Broadband Solutions. "Open collaboration is central to our innovation strategy. Through our work with prpl, we're contributing to the development of standardized, carrier-grade broadband solutions that bring tangible value to operators and end-users across the globe."

With representation on the prpl Foundation Board, Sagemcom plays a leading role in advancing open-source broadband technologies, contributing to the evolution of prplOS, prplMesh, and prplWare. These efforts support the delivery of secure, scalable, and interoperable connected home solutions.

About Sagemcom

All over the world, thanks to the innovative solutions designed and built by its teams, Sagemcom provides, to the greatest number of people, access to broadband Internet, entertainment, and managed energy supply. As a "mission-driven company" since January 2022, Sagemcom makes sure that the design, construction and use of these solutions are sustainable, and fulfil the environmental and societal commitments known and shared by all its teams, partners and stakeholders. A technology leader in its markets, Sagemcom is 30% owned by its employees, has achieved over €2.3 billion turnover in 2024, and is profitable since it was founded.

About the prpl Foundation

The prpl Foundation is a collaborative open-source community dedicated to open APIs and open industry standards, focusing on carrier-grade software for broadband customer premise equipment as specified by operator members. The prpl Foundation brings together service providers, original equipment manufacturers, system integrators, chip vendors and application developers to harmonize home network architecture, then commonizes a reference implementation of standardized open-source infrastructure built atop open APIs and open industry standards. prpl enables a service delivery ecosystem including innovative third-party applications that can be quickly and easily deployed across different CPE platforms.
