## Sagemcom - Forecast for products

Your company is a Sagemcom supplier's for manufacturing plant and you need forecast ? Yes,

- Sagemcom ERP calculates every week the forecasted quantity of products
- You can receive weekly a text file on your email (automatic weekly transmission)

*Available for Tunis(4680) and MEI(1691) plants*

## Sagemcom - Forecast for products – By email

### First step:

- declare the email you want Sagemcom to use for sending forecasts along with your supplier code
  - Example : Supplier R123456789, request your purchaser : « please add [jean.dupond@company.com](mailto:jean.dupond@company.com) for forecast services »

### Second step:

- This email will receive each of week (likely to be on Monday) the following email:

The screenshot shows an email header with the following details:

- De : CC DI\_FLUX <SAPBATCH@sagemcom.com>
- À : Miss.world@company.com
- Cc :
- Objet : SAGEMCOM - Forecasts suppliers/Prév. fournisseurs

Below the header, there is a section for attachments:

- Message
- Mail fournisseur.TXT (42 Ko)

A blue arrow points from the text "Attached file containing forecasts" to the "Mail fournisseur.TXT (42 Ko)" attachment.

The email body contains the following text:

This email contains forecasts information for suppliers sent by Sagemcom ERP. Contact your purchaser for further information.

Ce message contient les prévisions pour fournisseur envoyées par l'ERP Sagemcom. Contacter l'acheteur Sagemcom pour plus d'information

Best Regards  
Salutations
